Section Leader Comments

Please comment on your Section Leader's teaching.

Comments
Soichiro was super patient with us and I was very grateful for that and many of our trying questions. He was often able to explain things in different ways and prove why things were right or wrong, which was awesome
Really helped in my understanding of the coding aspect of the course.
Soichiro was a great TF
Soichiro made sure that everyone felt comfortable with the materials and took a lot of his own time to answer every question we had.
Soichiro is a fantastic TF. Although I was not a member of his section, I attended his office hours which I found very useful. He explained difficult statistical concepts in a different way than the textbook. Moreover, he explained his PhD level researches so that I get motivated to learn quantitative social science more.
